Лабораторная работа №4

Тема: Использование циклов и условий.

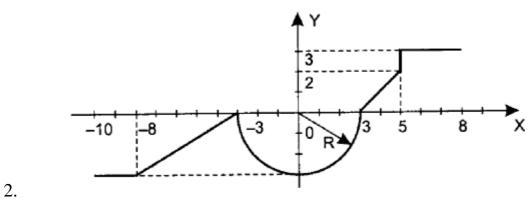

Цель: Научиться решать задачи с разветвляющимися и циклическими структурами.

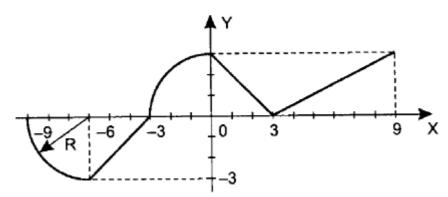

Задание

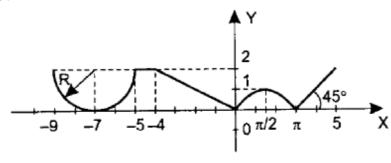

Вычислить и вывести на экран в виде таблицы значения функции, заданной графически , на интервале от $x_{\text{нач}}$ до $x_{\text{кон}}$ с шагом dx. Интервал и шаг вводить с клавиатуры. Таблицу снабдить заголовком и шапкой. Номер варианта соответствует вашему номеру по журналу.
